Calflora Planting guide
https://www.calflora.org/entry/palette.html
Lists of plants suitable to grow in your area with photos, bloom times and more. Links to California Native Plant Link Exchange below to find where to purchase plants. More science based.

California Flora Nursery website
https://www.calfloranursery.com
Pictures and information on growing native plants. Sign up for their newsletter.
(707) 528-8813
2990 Somers Street
Fulton, CA 95439

California Native Grasslands Association
https://cnga.wildapricot.org
Information on identifying and growing California native grasses.
Downloadable brochures on The New Front Yard.

California Native Plant Link Exchange
http://www.cnplx.info/index.html
Information on plant communities - who likes to grow with who, where to purchase plants, what to grow in your area.

Grow Water
https://www.growwater.org/
Information on rainwater collection and laundry to landscape systems (greywater.)

Ida-Maia Natural Landscapes
Landscape design incorporating native plants, rainwater catchment and sustainable horticulture principles.
tworns@pacific.net
(707) 272-8831

Las Pilitas Nursery website
http://www.laspilitas.com
Lots of information about and pictures of native plants.
Landscaping tips.
Plant selector by zip code, soil type, exposure and irrigation
Local Government Commission  
[lgc.org/ahwahnee](http://www.localgov.org/ahwahnee)  
The Ahwahnee Water Principles. A Blueprint for Regional Sustainability.  

Pacific Horticulture Society  
[http://www.pacifichorticulture.org/articles/](http://www.pacifichorticulture.org/articles/)  
Online articles. Pacific Horticulture Journal. Local Garden celebrity Kate Frey writes for this journal.

Rainwater Harvesting (Brad Lancaster)  
[http://www.harvestingrainwater.com](http://www.harvestingrainwater.com)

Russian River Friendly Landscaping  
Downloadable brochures with information on sustainable landscaping.

Texas A&M AgriLife Research/Extension  
[http://dallas.tamu.edu/media/75308/cycle_and_soak_irrigation_method.pdf](http://dallas.tamu.edu/media/75308/cycle_and_soak_irrigation_method.pdf)  
Information on Cycle and Soak irrigation

UC Davis Arboretum All-Stars  
[http://arboretum.ucdavis.edu/arboretum_all_stars.aspx](http://arboretum.ucdavis.edu/arboretum_all_stars.aspx)  
The horticultural staff of the UC Davis Arboretum have identified 100 tough, reliable plants that have been tested in the Arboretum, are easy to grow, don’t need a lot of water, have few problems with pests or diseases, and have outstanding qualities in the garden. Many of them are California native plants and support native birds and insects. Most All-Star plants can be successfully planted and grown throughout California.

UC Master Gardener Program  
[http://mg.ucanr.edu](http://mg.ucanr.edu)  
Links to multiple gardening resources. Local counties have individualized websites.

Weeding Wild Suburbia  
[http://www.weedingwildsuburbia.com](http://www.weedingwildsuburbia.com)  
Barbara Eisenstein’s web site with blogs, power points, plant lists and tips for gardening with native plants. She has a new book out: Wild Suburbia: Learning to Garden with Native Plants

WUCOLS IV Water Use Classification of Landscape Species  
[http://ucanr.edu/sites/WUCOLS/](http://ucanr.edu/sites/WUCOLS/)  
WUCOLS IV provides evaluations of the irrigation water needs for over 3,500 taxa (taxonomic plant groups) used in California landscapes.  
Downloadable plant list and user manual.
